### 1827 QUARTER DOLLAR IN COPPER

- 390 — 1827 Restrike Quarter Dollar. Type of regular issue, but struck in Copper. Thick planchet with wire edge. Brilliant Proof. A. W. 37. Rarity 14. Only three specimens supposedly struck. Excessively rare. Rarer than the silver specimen which now catalogs at \$700.00.

The restrike of the 1827 Quarter is listed as Browning #2. The reverse is identical with the Browning #2 of 1819. It can be distinguished by a flat based 2 in 25 C., while the original reverse has a curved base 2 in the value. The specimen in the Belden E. Roach Coll., sold February 8th, 1944, lot #2387, brought \$237.50. This piece cost the original owner \$250.00 and the price is clearly marked upon the attractive box that the coin is in.

- 391 Original die strike for the obverse of the 1836 Silver Dollar by Christian Gobrecht. Struck upon an extremely thin planchet, in white metal, from one of the brass trial dies. Obviously made before the adopted steel die was completed as Liberty appears even more disjointed than upon the final product and the base seems lacking in detail. Engraver's lines appear in the background. Ex. Fine and highly interesting.

### 1916 PATTERN MERCURY DIME

- 392 — 1916 Unpublished Essai for the famous Mercury Dime. Very similar to the regular dies, but entirely different in execution. On the obverse, the top of Liberty's cap lies flatter and closer to the head. The feathers in the wing on the cap are more clearly and artistically defined than on the accepted die. The hair is more attractively styled and generally, the representation of Liberty is more pleasing than upon the coins placed into circulation. Both the olive branch and the fasces upon the reverse are differently arranged, even though the variance from the adopted design is slight. Silver. Proof, not fully brilliant and badly tarnished. Excessively rare, probably Unique.

This beautiful Pattern by A. A. Weinman was originally in the collection of Waldo Newcomer later passing into the hands of Wayte Raymond. It differs materially from the two 1916 dime patterns in the mint collection, which were formerly assumed to be unique in themselves.

550 **1799 Large Cent.** Perfect date. D-138, Clapp 2, Sheldon 189. About Fine. Con. 12. Nice even wear with the exception of a minute edge bruise on the reverse edge. Only the very top of LIBERTY and the lower part of the first three numerals in the date could be called weak. A clean, attractive specimen of a rare and popular coin. Well worth \$150.00.  
551 **Colonials.** (1680) Mark Newby Halfpenny and Farthing. Good and Very Good. Last struck on a defective planchet. First rare. 2 Pcs.

554 — 1786. Conn. Cent. Hercules Head. M. 5<sup>3</sup>-N. Obverse Fine and very sharp. Reverse poorly struck as it shows letters incused from another Conn. cent. A popular variety, worth \$7.50.  
555 — 1788. Conn. Cent. Mailed bust r. M. 6-H. (Rarity 6) Strictly Fine for this rarity. The obverse clearly shows overstriking, the date 1788 incused above the head. Very rare variety.

- 556 — 1785. Vermont Cent. VERMONT; 1788. New Jersey Cent. Both overstruck over other colonials. Good. Unusuol. 2 Pcs.
- 557 **Pattern Liverpool Halfpenny.** 1791. Bust of Washington left as on the large eagle cent. WASHINGTON PRESIDENT. Date below. Reverse. Ship sailing right, crossed branches beneath. LIVERPOOL HALFPENNY. Edge ploin. Struck in PEWTER. This piece, while similor to the regulor Liverpool Holfpenny which lists at \$75.00, is unpublished not only because of the metol, but because the reverse is completely unlike that usually found. The arrangement and composition of the sails upon the ship is entirely different ond the bronches of the base of the reverse are considerably longer and finer. Ex. Fine. Lustrous. Unknown to Crosby and any other authority. Probably Unique.  
The regular Liverpaal Halfpenny is a mule of uncertain origin, cambining the Washington obverse (Dalton & Hamer 1049) and the Liverpool reverse (D-H 107), which is actually the obverse of a 1793 taken. This combination is listed as D-H 116. It is distinguished by a broken reverse die evident at the top af the ship. We located eight or nine records far the regular piece, one of the highest being for \$110.00 as lat #3275 in Woodward's March, 1865, sale. The piece offered herewith has as a reverse, the obverse of Dalton & Hamer 88-9 of 1791 which is also D-H 100-2 of 1792. It is far rarer than the usual Liverpool Halfpenny and actually, is as rare as any Colonial or Washington piece known.
- 558 — 1828. Half Cent. Thirteen star variety. Uncirculated, mostly full mint red. Very slightly tarnished upon the obverse and the reverse has three minute spots. Unusuol condition.
- 559 — 1865. Three Cents Nickel. The rare and famous "Recut date." Ex. Fine. The identical piece illustrated in the August, 1949, Numismatist. Rare.
- 560 — 1887. Three Cents Nickel. Brilliant Proof. Lists at \$15.00 in the Std. Cot., and \$16.00 in the Guidebook.
- 561 — 1887. Another as last. An undercatalogued and undervalued coin. Will undoubtedly sell for \$20.00 shortly.
- 562 — 1839 "O". Half Dimes. Without drapery. Perfect and broken dies. The latter with a reengraved date ond unlisted. Very Fine. Last rare. 2 Pcs.
- 563 — 1850. Half Dime. Choice Uncirculated. Somewhat toned. Worth full catalog value of \$3.00.
- 564 **Lafayette Medals.** 1824. Bust right. GENERAL LAFAYETTE. Date on shoulder. Below, in exergue, CAUNOIS FRENCH. Reverse. Within wreath, THE DEFENDER OF AMERICAN AND FRENCH LIBERTY, 1777-1824. BORN IN CHAVANIAC, THE 6 SEPTEMBER, 1757. Bronze. 46mm. Olivier 35. Ex. Fine. Uncommon.
- 565 — Same, almost identico! to the last. Obverse only. J. BALE below the bust. Struck from rusty dies. Reverse blonk. Bronze and White Metal. 47mm. Ex. Fine. Rore. 2 Pcs.
- 566 — 1859. Indian Cent. Reverse of 1860. Resembles A. W. 312. Appears to be on a flon almost 8 mm thick, in Copper-Nickel. The edge is somewhat concave and appears to be copper colored. H. F. BATCHELOR. BT. CT. is crudely punched upon the edge. Very Good. Curious and the first we have seen.

## A TYPE COLLECTION OF MINOR UNITED STATES PATTERN COINS

We are proud to present herewith, a splendid collection of U.S. Patterns illustrating almost all of the varied designs proposed for our minor cainage. This "Type" collection was formed by Hillyer Ryder, the well known collector of Carmel, New York, and represents many years of arduous effort. The acquisition and study of Pattern Types is one of the most sensible approaches ta the Essai series.

Frequently, the non-specialist or the collector with limited means becomes more than a little discouraged by the seemingly unlimited number of trial pieces, mules, die strikes and similar material. Unfortunately, the standard work on the series, Adams and Woodin's "United States Pattern, Trial and Experimental Pieces" is considered a confused and incomplete listing that makes no attempt to segregate or classify the various major varieties as such. Wayne Raymond has made remarkable progress in his breakdown of the Pattern Types and we understand that Dr. J. Hewitt Judd, in his forthcoming work, will give a more adequate description and classification of Essais in general. We earnestly advise collectors to give this offering their close attention as we feel that many of these pieces represent phenamenal values. Increasing popular demand, when coupled with adequate reference works, will certainly drive prices upward.

We include the A. W. numbers for purposes of identification only. The values fallowing each lot represent U. S. Pattern Coin Prices taken from the 1950 list prepared by Col. James W. Curtis, and combined with our own records, indicate the *average* price at which each piece was sold or offered during the years 1946-49. As Mr. Ryder usually recorded the origin of his coins, we give full pedigree where positively known.

- 567 — **CENTS. 1850.** U.S.A. ONE TENTH SILVER. Rev. CENT. Date below. Without the perforation. Broken obverse die. Struck in Copper-Nickel. Similar to A.W. 113, but not listed in Adams and Woodin. Choice Proof. Extremely rare. The Fred Olsen example, lot #487 in the sale of his collection, November 7th, 1944, realized \$52.50.
- 568 — **1853.** Obv. Same as Qtr. Eagle. Rev. ONE CENT in olive wreath. Appears to be a camposition, probably white metal and pure nickel. Reeded edge. Thin planchet. Dull Proof. Traces of green corrosion on the reverse which can be easily removed without harm to the coin. **A. W. 179.** R6. (\$25.00)
- 569 — **1854.** Liberty head, without stars. Rev. Small wreath. Bronze. Beautifully toned steel Proaf. **A. W. 187.** R2. (\$13.00)

- 571 — **1855.** As last, but large wreath on the reverse. Copper. Red Proof. **A.W. 197.** R2. (\$11.50)
- 572 — **1856. Flying Eagle Cent.** Rev. Tobacco wreath. The regular dies adopted and used in 1857-8. While this coin is technically a Pattern, it has been adopted into the regular series. Copper-Nickel. Proof, but not in full brilliancy. The edge is slightly defective, including a minute reverse edge nick. **A.W. 206.** R1. Catalogs in the Standard Catalog at \$175.00. In great demand. (\$165.00)
- 573 — **1856. Flying Eagle Cent.** Rev. Oak wreath and ornamental shield. Copper-Nickel. Brilliant Praaf. **A.W. 210.** R12. This variety is by far one of the rarest and most papular 1856 Pattern cents. J. F. Jones, in his splendid article published in the April, 1944, Numismatist, stated that this coin only appeared in eight sales in eighty years. It is far rarer in Copper-Nickel than in Copper. A splendid investment and a superb coin to own. (\$325.00)
- 574 — **1856. Flying Eagle Cent.** Eagle in plain field. Neither inscription nor date. Rev. Tabacco wreath. Copper. A toned, attractive Proof, nat in full brilliancy. **A.W. 212.** R12. Hardly as rare as the last, but still a really rare and desirable coin. This variety appeared twenty-one times in eighty years. Another beautiful coin and a fine investment. (\$250.00)
- 575 — **1858.** Flying Eagle, small letters. (Similar to regular issue.) Rev. Oak wreath. Copper-Nickel. Choice Proof. **A.W. 243.** R5. From the Jackson Coll. 1913. (\$32.75)

- 578 — **1858.** Flying Eagle, small letters. (Similar to regular issue.) Rev. Oak wreath and broad, ornamental shield. Copper-Nickel. Proof, somewhat toned. **A.W. 253.** R5. From the Jackson Coll., 1913. A splendid mate for the last. (\$50.00)

- 581 — **1858.** Small Flying Eagle. Rev. Oak wreath and broad, ornamental shield. Copper-Nickel. Almost fully brilliant Proof. **A.W. 257.** R5. From the U.S. Coin Co. sale, June 30, 1915. (\$47.50)

- 585 — **1858.** Indian Head. Rev. Oak wreath and broad, ornamental shield. Copper-Nickel. Choice Proof. **A.W. 268.** R5. From the U.S. Coin Co. sale, April 22, 1915. (\$19.00)

- 586 — 1858. Indian Head. Rev. Tobacco wreath. Copper-Nickel. Choice Proof. A.W. 270. R5. From the U.S. Coin Co. sale, April 22, 1915. (\$35.00)

- 590 — 1863. **Indian Head. Bronze, with "L" on ribbon.** Thin planchet, the exact type adopted in 1864 and coined until 1909. An unpublished variety, not in Adams and Woodin. Brilliant Proof. Excessively rare. We only know of one other specimen, the F. E. Olsen coin, which was sold in 1944 for \$87.50. This rare item is the only true "Type" Pattern for the Indian Head series, 1864-1909. A beautiful and valuable coin to own.
- 591 — 1868. Obv. Similar to the regular issue Nickel Three Cents. Rev. I in Tobacco wreath. Nickel. Mostly brilliant Proof. A.W. 698. R12. (\$15.25)
- 592 — 1868. Obv. Similar to the last. Rev. I in Laurel wreath. Nickel. Brilliant Proof. A.W. 700. R12. (\$18.50)
- 593 — 1869. Similar to the last. Nickel. Proof, mostly brilliant. A.W. 820. R8. (\$14.25)
- 594 — 1881. Liberty head resembling that on the regularly issued 1883 Nickel Five Cents. Rev. I in wreath. Nickel. Proof, somewhat toned. A.W. 1654. R8. (\$20.00)
- 595 — 1884. UNITED STATES OF AMERICA around, date below. Rev. ONE CENT above. Ornamental shield and divided wreath at base. Small perforation. Nickel. Brilliant Proof. A.W. 1704. R8. (\$32.25)
- 596 — 1885. Design very similar to the last, but more finished and therefore more attractive. Perforated centre. Silver. Very Fine. A.W. 1723. R9. From the Bryant Coll., 1907. Accompanied by a ticket that quotes L. H. Low—"If this date and type has appeared before, it has escaped my notice." (\$20.00)
- 597 **TWO-CENT PIECES. 1836.** Eagle standing. UNITED STATES OF AMERICA. Date below. Rev. TWO CENTS encircled by a large wreath. The first piece of this denomination struck in the mint. Copper. Plain edge. Red Proof. A.W. 58. R9. (\$19.25)
- 598 — 1863. Washington bust r. GOD AND OUR COUNTRY. Rev. Similar to adopted design, CENTS much curved. Copper. Proof, obverse appears to have been cleaned. Reverse toned. A.W. 405. R4. From the Gschwend Coll., 1908. (\$20.50)
- 599 — 1863. Shield. Matto, GOD OUR TRUST. Rev. CENTS much curved and without baw on ribbon. Copper, branched. Dull Proof, same tarnish. A.W. 412. R6. (\$13.50)
- 600 — 1863. Shield. Large Matto. The adapted design of 1864. Copper. Beautifully toned Proof. Two minute edge defects. A.W. 417. R6. A splendid mate for the 1863 "L" Cent. (\$30.00)
- 601 **THREE CENT PIECES. 1868.** Similar to the regular design, but on a larger planchet. Rev. Tobacco wreath. Nickel. Proof, mostly brilliant. A.W. 688. R12. (\$17.00)
- 602 — 1868. Similar to the regular design, but larger in execution. Rev. Laurel wreath. Nickel. Brilliant Proof. A.W. 692. R12. (\$11.25)
- 603 — 1869. Almost identical to the last. Nickel. Proof, not fully brilliant. A.W. 815. R4. (\$9.75)
- 604 — 1881. Liberty head as on the regularly issued 1883 Nickel Five Cents. Rev. III in wreath. Nickel. Proof, somewhat toned. A.W. 1651. R8. (\$25.00)
- 605 **FIVE CENT PIECES. 1865.** Shield. The type adapted in 1866 with rays upon the reverse. Nickel. Proof. Mostly brilliant. A.W. 506. R10. From the Jackson Coll., 1913. This piece combined with lots 606 and 613 would form a nice set. (\$50.00)
- 606 — 1865. Shield. The type finally adopted in 1867 without the rays upon the reverse. Nickel. Proof. Mostly brilliant. A.W. 508. R10. From the Jackson Coll., 1913. A splendid mate for the last. (\$40.75)

- 607 — **1866.** Bust of Washington r. UNITED STATES OF AMERICA. Date below. Rev. 5 CENTS within an olive wreath. Above, IN GOD WE TRUST. Nickel. Proof, not fully brilliant. **A.W. 541.** R8. From the Wilson Coll., 1908. (\$23.75)
- 608 — **1866.** Bust of Washington r. IN GOD WE TRUST. Date below. Rev. The figure 5 within a wreath. Around, UNITED STATES OF AMERICA. Nickel. Proof, not in full brilliancy. **A.W. 545.** R8. Our files do not show any records at all for this variety. Impressions have appeared, from time to time, in Bronze (A.W. 546), but this piece is, to our knowledge, the first specimen to appear in the original metal. Of the greatest rarity.
- 609 — **1866.** Bust of Washington r. IN GOD WE TRUST. Date below. Rev. The figure 5 within a heavy wreath. Around, UNITED STATES OF AMERICA. The same reverse as A.W. 555 and 575. Nickel. Proof, mostly brilliant. **A.W. 548.** R8. (\$19.50)
- 610 — **1866.** Bust of Washington r. IN GOD WE TRUST. Date below. Rev. The type adopted for the regular issue with rays. Nickel. Choice Proof. **A.W. 551.** R8. From the Zabriskie Coll., 1909. (\$21.50)  
The last four lots would represent a valuable addition to a collection of Washingtonia.
- 611 — **1866.** Shield. Similar to the type adopted for regular use in this year, but the obverse has a divided date and the motto IN GOD WE TRUST is minute in size. Copper. Toned Proof. Has a few infinitesimal defects. **A.W. 566.** R10. (\$25.00)
- 612 — **1866.** Shield. Same obverse as the last. Rev. The figure 5 within a wreath. Around, UNITED STATES OF AMERICA. Nickel. Brilliant Proof. **A.W. 567.** R10. (\$27.25)
- 613 — **1866.** Shield. The type finally adopted in 1867 without the rays upon the reverse. Nickel. Proof, almost fully brilliant. **A.W. 570.** R10. This variety together with A.W. 508 would make an interesting addition to a collection of Shield Nickels. (\$29.75)
- 614 — **1866.** Shield. Similar to the regular dies. Rev. The figure 5 within a heavy wreath. Around, UNITED STATES OF AMERICA. Nickel. Proof, mostly brilliant. **A.W. 575.** R10. This is another variety for which we cannot locate any modern sales records. We assume therefor, that is much rarer than commonly supposed.
- 615 — **1866. Bust of Lincoln r.** UNITED STATES OF AMERICA. Date below. Rev. 5 CENTS within an olive wreath. Above, IN GOD WE TRUST. Copper. A beautifully toned Proof, however, the obverse shows signs of mishandling. There is a serious nick below "A" in AMERICA. The edge displays a few infinitesimal nicks and the field shows minor indications of abrasion. **A.W. 583.** R8. Excessively rare and in great demand. (\$250.00)  
Edgar H. Adams, writing in the 1909 Numismatist, claimed that only five pieces were struck. This Pattern is not only sought after by coin collectors, but by collectors of Lincolnia as well. The above specimen is not quite perfect, but superior pieces have been listed as high as \$335.00. This example is the only one Mr. Ryder could locate and is worthy of a home in the finest collection.
- 616 — **1867.** Indian head with four feathers. UNITED STATES OF AMERICA. Date below. Rev. V an shield. Above, IN GOD WE TRUST. The design of James B. Longacre. (LONGACRE F. appears in minute letters below the bust.) Aluminum. Plain edge. Brilliant Proof. **A.W. 630.** R6. (\$18.25)
- 617 — **1867.** Liberty head as on the regular Three Cent Nickel, 1865-89. UNITED STATES OF AMERICA. Date below. Rev. 5 CENTS in wreath of laurel, the word CENTS slightly curved. IN GOD WE TRUST above. Nickel. Proof, mostly brilliant. **A.W. 644.** R6. From the Wilson Coll., 1908. (\$20.25)
- 618 — **1868.** Obverse almost identical to the last. Rev. Large V within a wreath. IN GOD WE TRUST on scroll above. Nickel. Proof, mostly brilliant. **A.W. 675.** R4. (\$14.50)
- 619 — **1868.** Obverse similar to both of the above, but without the star on coronet. Rev. A small V within a heavy, ornate wreath. A six pointed star above. The reverse of A.W. 618. Struck in Copper. The description of A.W. 678 partly describes this specimen, but since we have never seen A.W. 677 or 678, we can only feel that this variety is unpublished. A choice, toned Proof. Extremely rare.

- 620 — 1868. Obverse identical to last. Without the star on coronet. Rev. 5 CENTS in wreath of laurel, the word CENTS slightly curved. IN GOD WE TRUST above. Nickel. Struck on a wide, slightly defective flan. Proof, mostly brilliant. **A. W. 680.** R4. (\$14.00)
